

# KITTITAS VALLEY RIFLE & PISTOL CLUB

JANUARY 2015  
NEWSLETTER

Greetings to all of this year's KVRPC participants. We are off to a very nice start for this year's shooting season. Be sure to check out our new website, [www.kvrpc.org](http://www.kvrpc.org) for up-to-date information and match results. Also join our group on Facebook at Kittitas Valley Rifle & Pistol Club to receive announcements, match results, ammo availability alerts, and much more.

Thank you all for your participation in KVRPC shooting programs.

## Target Rifle Tuesday Evenings

We are fielding one to two relays per week. So far the KVRPC's very own Ellensburg Rifle Team is doing quite well in the Yakima Rifle League, which is made up of teams from Yakima, Wapato, Tieton, Selah, Toppenish and Ellensburg. Erich Mietenkorte is shooting into the high master level now and has been shooting the high score for the entire league in indoor gallery rifle competition. The Yakima Rifle League still has twelve matches to go for the year and the Ellensburg Rifle Team has an excellent chance to do very well.

## Bullseye Pistol Wednesday Evenings

We are fielding up to three relays per night beginning at 6:00 PM. Last year one of the four teams placed first in the G class and the results so far this year show an improvement in that performance. We have a good number of returning participants that are already shooting above last year's scores. As the season progresses I am sure they will place excellent scores in the record. We have added an additional shooting time to the schedule for Bullseye shooting. We are doing two additional relays starting at 12:00 noon and at 12:45 PM on Wednesdays. So far the additional time has allowed an increase in participation for those shooters that have evening activities that prevented them from coming out to the matches. We will be continuing the additional shooting opportunity for the entire season.

## Light Rifle Thursday Evenings

This is our open shooting evening for those shooters that just want to come out by themselves or with the family and shoot their .22 rifles in a warm and safe environment. We provide the facility and the targets but your shooting program is up to you. We will always have a Range Master on hand to oversee the shooting line and call for target changes but the shooting is done your way. This is an ideal opportunity to bring your responsible children out to the range for some shooting practice. The KVRPC has a small assortment of light rifles that participants can use for the evening if you do not have a rifle of your own.

! The KVRPC Directors want to remind all FULL MEMBERS of the KVRPC that the range door code will change on January 1<sup>st</sup>. You must have a new RANGE OPERATION AND SAFETY REVIEW sheet turned in to receive the new door code. Even if you did one last year we need a new one this year from all FULL MEMBERS. One of the KVRPC Directors will be at the range the morning of New Year's Day from 9:00 to 11:00 AM to do RANGE OPERATION AND SAFETY REVIEWS for FULL MEMBERS. If you can't do the review at that time then check with a Director the next time you come out to shoot. !
